

1. Do research
2. Schedule Follow up
3. Thank Parliamentarian / Staffer for meeting with us
4. Introduce ourselves (briefly) How much time do you have for this meeting?
5. Acknowledge, Appreciation, Respect and Gratitude
6. Our purpose: to create the political will for a stable climate
7. Our request: Support or introduce legislation that puts a fee on carbon based fuels and returns the revenue to Canadian households. We have more to say on that but we would really like to know what your priorities are for climate/energy policy
8. What do you like/dislike about current Canadian Climate Change?

Possible Questions you could ask to further the discussion:

What do you think would be the fastest way for Canada to become the leader in creating renewable, clean jobs?

Do you think Canada should continue to parallel US climate policy or should we take the lead?

Based upon your group's research of local issues what can you ask about drought, flood, renewable jobs, business or faith based leaders in the community?

Are you concerned about the National Security implications if climate change is left unmitigated?

How much time do you think we have left to steer the planet away from the worst impacts of climate change?

Note: Please anticipate from your research what you think their responses might be.

9. our request: Support or introduce legislation that puts a fee on carbon and returns the revenue to American households. We have additional materials, would you like them hard copy or electronic? How and when should I follow up?

10. Who do you work with on the other side of the aisle?

11. Thank you for your time

BE SURE TO GET A PICTURE AND ASK THE MP IF WE CAN POST IN IT SOCIAL MEDIA
